DETAILED ACTION

1. Applicant's remarks filed 4/11/06 have been entered.

Allowable Subject Matter

2. Claims 1-5 are allowed over the prior art of record.

Reasons For Allowance

3. The following is an examiner's statement of reasons for allowance: The prior art does not disclose nor fairly suggest a method for forming a solid state image sensor as described in independent claim 1.

The solid-image sensor provides a light blocking member between the adjacent color filters, which is used for blocking the drawn light with different spectrums from the adjacent color filter, in order to prevent the photosensor element from converting the different spectrum light, resulting in color offset. Also, the light blocking member is used for collecting light onto the photosensor element in order to improve sensing effects of the photosensor element. The solid-state image sensor can also reduce color coupling effect and improve the sensing effect of the photosensor element due to the blocking and reflection of the light blocking member.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Monica D. Harrison whose telephone number is 571-272-1959. The examiner can normally be reached on M-F 7:00am-3:30pm.
